Summary

I am D. Varun Kumar Reddy, a final-year B.Tech Computer Science and Engineering student with a specialization in Cloud Computing. I have a strong interest in cloud technologies and am passionate about exploring and working with emerging tools and platforms in this domain. Currently, I am actively engaged in developing n8n automation agents and browser extensions, with a focus on practical applications that enhance productivity and workflow automation. I am eager to expand my expertise and contribute to innovative projects in the field of cloud computing and automation.

Education

SRM IST-Ramapuram

Financial Technology

Smart Pantry System | [Link](#)

· Typescript,Css

Jul 2025 - Jul 2025

Web Development

The Smart Pantry System is an innovative solution designed to automate and simplify pantry management. Leveraging IoT technology and web development, it enables users to track inventory levels, receive notifications for low-stock items, and manage their pantry efficiently through an intuitive interface. Ideal for modern homes, this system helps reduce food waste and ensures essential items are always in stock.
